

Emile De Vlieger

I don't think I fit the stereotype of an IT professional since I'm an outgoing person who enjoys being around others. However, as an IT student, I don't see being different as a negative thing. I am communicative and like to share my ideas with others. By combining my education and personality, I believe I can have an advantage. If I had to describe myself in a few words, I'd say I'm curious, social, flexible, and helpful. In my free time, I play golf and work out at the gym. On Tuesday evenings, I volunteer as a coach for the G-team at my local table tennis club.

Employment History

Salesperson at Keurslager Stessens, Geel

JANUARY 2021 – JUNE 2021

Cleaning staff at Carrefour Alma, Geel

Every summer for 3 years

Dishwasher at Multiple restaurants, Around Antwerp

Multiple restaurants for multiple years

Internships

Enabling clients to go cloud-based with their integrations at Integration Designers, Kontich

SEPTEMBER 2023 – DECEMBER 2023

During my internship, I had the opportunity to work with the talented team at Integration Designers, which is a part of the Cronos Group. My main task was to develop a Proof of Concept that would showcase to clients the potential benefits of transitioning to cloud-based integration solutions. (you can read more of this on the "internship" page on my portfolio website)
